

# Care Access

## JOIN THE FIGHT TODAY!

**Be a volunteer for a preclinical  
Alzheimer's research study.**

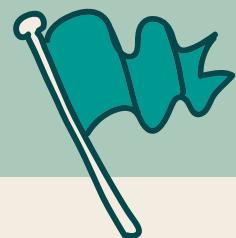

**Did you know that research  
has found the earlier a patient  
is diagnosed with Alzheimer's,  
the better their loved ones  
usually handle the diagnosis?**

### **Who Can Participate?**

Cognitively healthy adults who are ages 55 to 80 are encouraged to contact us today!

We will be able to determine if you may be able to participate in a research study that will help us in the fight against Alzheimer's!

#### ***Benefits of Participation:***

- Study participants will receive study-related care at no cost
- Eligible participants will receive compensation for their time and travel expenses
