TOGETHER-PsO is a clinical research study from Eli Lilly and Company. It is testing if 2 investigational medicines (medicines being studied) may help treat people with plaque psoriasis and obesity or overweight.

Can I join this study?

Yes, you may be able to join the study if you:

- Are 18 years of age or older
- Have been diagnosed with moderate-to-severe plaque psoriasis for at least 6 months
- Have obesity or overweight, with a BMI of 27 kg/m² or more

BMI stands for **body mass index**. BMI examines a person's weight in relation to their height. It gives a general guide on whether someone may be at risk for health conditions.
